

Digital Pro *Lite*

An economical thin yet powerful film that can be creased and folded.

Digital Lamination Film

Our products and services protect
print, making it more reliable in
demanding environments.

Digital Pro *Lite*

A thinner, more economical film that can be creased and folded. Made for professional trade printers who use more powerful laminating machines that require less glue and pressure for adhesion. Rolls are available in longer lengths for less changeovers and machine downtime. Suitable for print with images and some solid colours to bleed.

Use on

Menus | Covers | Booklets | Tent Cards

Features

- > Guaranteed adhesion to any digital print
- > Thin film creates no rippling or cracking along edges when creasing.
- > Strong adhesive allows flush cut to the edge
- > No delamination on high-ink coverage
- > Seals & protects print for up to 3 years indoors

Sizes and Specs

- > 315mm / 440mm / 445mm widths
- > 77mm core
- > 500m / 1000m lengths
- > Gloss 40mic

Properties

Thickness:	25µm
Yield:	45.7 m ² /kg
Unit Weight:	21.88 g/m ²
Laminating Temperature:	95-115 OC
Wetting Tension:	≥36 Dynes/cm

Useful info

Clean and dry print surface before application. Please store this product in a cool, dry place away from direct sunlight. Figures provided are guidance only. All values and information are approximate. Please test before use.

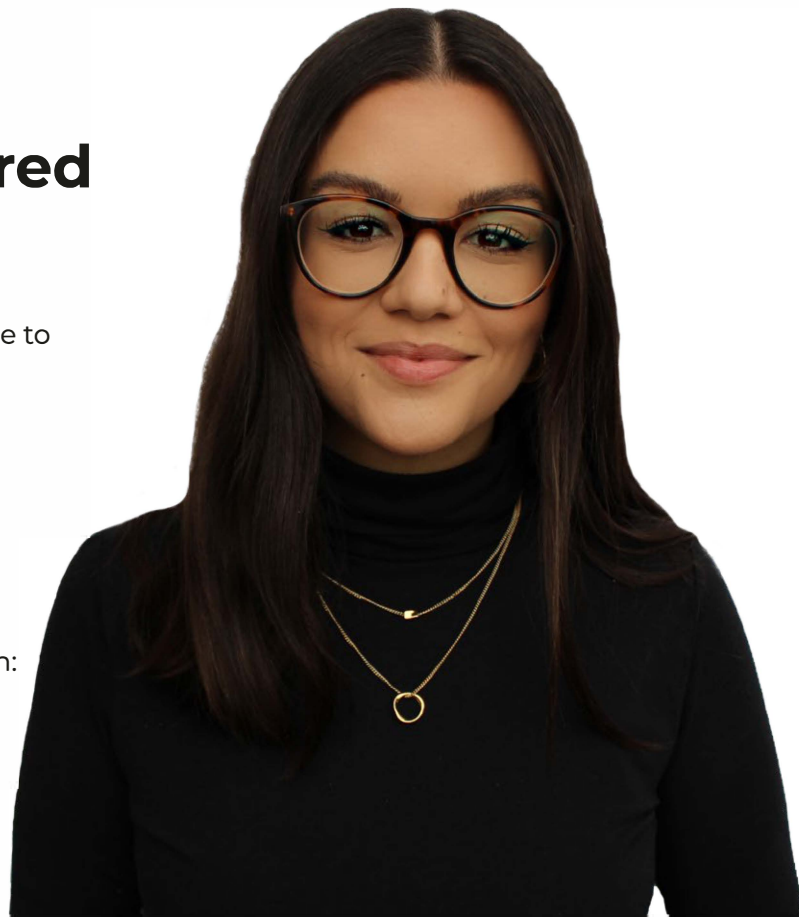

Digital film delivered in 48 hours

We know you need film fast so we promise to get it to you within 48 hours if you order before 3pm.
