

# **A recyclable, synthetic paper for eco-minded businesses.**

Ironleaf is a new type of printable paper that is indestructible and recyclable. It's for businesses who use print in tough situations, but need it to be kind to the planet.

**Recyclable**  
**Tearproof**  
**Waterproof**

**Speak to your print  
representative for prices.**

## Perfect for print used in hot, cold and damp places.

Ironleaf is temperature and moisture resistant and can be used for allergen guides, fridge charts and staff food and drink manuals.

### Fridge organization chart

Arrange shelves by cooking temperature -  
highest cooking temperature on the bottom.

Ready-to-Eat Foods  
(top shelf)

Lowest cooking temperature

**57°C**

Any food that will be hot  
held that is not in other  
categories

**63°C**

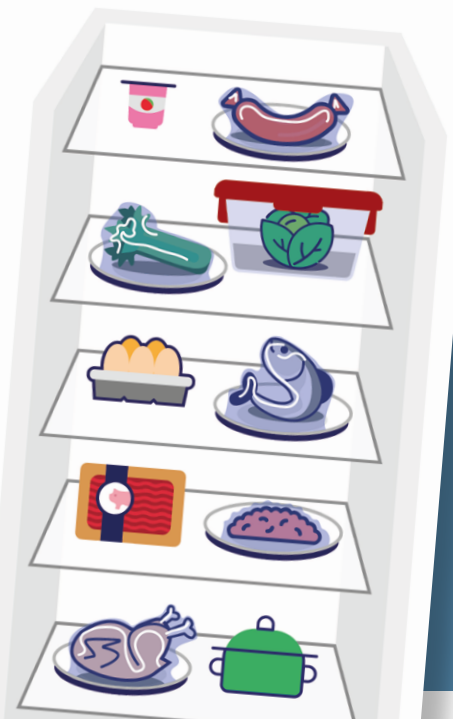

Whole seafood; beef, pork,  
veal, lamb (steaks and  
chops); roasts; eggs that  
will be served immediately

**68°C**

Ground, injected, marinated,  
or tenderized meats; eggs  
that will be hot held

**74°C**

All poultry (chicken,  
turkey, duck, fowl); stuff-  
ing made with foods that  
require temperature control;  
dishes with previously  
cooked foods (casseroles)

## Perfect for print used outside.

Ironleaf is waterproof and can be used for planning notices, garden centre plant tags, restaurant a-board posters and temporary signage.

## Perfect for print that gets handled often.

Ironleaf is tearproof and durable and can be used for invitations and tickets, gift vouchers, in-store catalogues and ID cards.

## Perfect for print that needs to be cleaned.

Ironleaf can be disinfected and can be used for food and drink menus, hospital appointment cards and hygiene signage.
